FOR IMMEDIATE RELEASE

FORT WAYNE WIRE DIE ADDS NEW DISTRIBUTOR IN IRAQ

FT. WAYNE, INDIANA (USA)—Wire manufacturing operations across Iraq can access U.S.-quality wire drawing die technology, now that global wire-die production leader [Fort Wayne Wire Die](#) has expanded its family of independent sales agents and distributors to include Baghdad-based United Al-Junied Company.

In addition to the finest [high-precision single- and polycrystalline diamond and carbide dies](#), United customers and prospects can also rely on receiving the very best in applications consulting and technical expertise from United's personnel team, led by sales engineer, Khalid Sarhan Ali Al-Jumaili.

With 17 years' experience in the wire and cable industry, including turns inside the Ministry of Industry and Minerals as a lead extrusion press engineer with a copper- and shaped-wire facility and a production-line supervisor with another copper wire factory, Al-Jumaili offers customers a very uniquely well-rounded wire manufacturing expertise.

In particular, he has also spent invaluable time working with U.S. engineers as chairman of the reconstruction committee of Fallujah City-Al-Anbar, where he engaged the market through a number of industrial disciplines from construction to electrical.

“We are very pleased to be representing Fort Wayne Wire Die in wire die sales to our customers,” says Al-Jumaili. “They have excellent service response capabilities and are extremely flexible to meet customer needs.”

To engage Khalid Al-Jumaili of United Al-Junied Company, an Iraqi-American Chamber of Commerce & Industry gold member, for your wire die needs, call 00964-7901461762 or e-mail khaledaljumily@yahoo.com.

Fort Wayne Wire Die, Inc., designs and manufactures high-precision wire drawing dies and hard-material components for the wire and cable industry. For more than 70 years, FWWD has been the scientific leader and innovative source for high-quality wire drawing dies that offer a multitude of value-added advantages.
